

Editorial

“For last year’s words belong to last year’s language
And next year’s words await another voice – T.S. Eliot”. Time passes so quickly, that 2015 almost comes to an end. First of all we would like to wish a “Happy Christmas” for our friends and family who celebrate. We began this December by holding a screening and selection for Beasiswa Unggulan 2015, after that we did a trip to Bandung with the foreign students of Faculty of Economics and Business UNSOED, and another big agenda we had is visitation from Prof. Maruyama Shigefumi and Prof. Ukena Satoshi from Takamatsu University Japan.

Selection of Beasiswa Unggulan Candidates

On Friday, December 4th 2015, International Program held a screening and selection process for the candidates to be submitted for Beasiswa Unggulan DIKTI. The selection process includes files selection which consists of educational background files and academic/ non-academic achievement files, and SAT test. The SAT (Scholastic Aptitude Test) is a standardized test widely used for college admissions in the United States. SAT measures literacy and writing skills that are needed for academic success in college. The SAT assesses how

well the test takers analyze and solve problems—skills they learned in school that they will need in college. However, the test is administered under a tight time limit (speeded) to help produce a range of scores. Those are the main reason why SAT test is chosen for the candidates’ selection.

There were 35 students join the selection process. Those students came from each study program in Faculty of Economics and Business UNSOED; Economic Development, Accounting, and Management. The best rank students from each study program will be submitted to DIKTI for proposing Beasiswa Unggulan. Good Luck for them!

Bandung Trip with FEB’s Foreign Students

From December 11th-13th 2015, our foreign students went for a trip to Bandung. The main purpose of the trip to Bandung is to introduce the immigration procedures for leaving the country as all of our students will leave on next month. The introduction of immigration procedures is required to provide an overview of the process and location, therefore the introduction should be conducted at airports that provide international flight services such as Husein Sastranegara Airport, Bandung. The introduction includes the identification of international departure location and passport and visa checks.

The students went to Bandung on December 11th, 2015 night and arrived in Bandung on December 12th morning. After arrived in Bandung, the students head straightly to the airport for the introduction of immigration process. After the agenda finished, while still in Bandung, the students went for a little trip around Bandung and Lembang. The students heads to Lembang first and visited Hot Spring Water in Ciater. After that the students went

to one of the most popular tourist attraction there, Mount. Tangkuban Parahu. The students were amazed by the view and very happy to see the natural attraction which they can't found it back in their country. Then, the students went to Floating Market and stayed for one night in Cihampelas.

One of the foreign students from Malaysia, Ainun Nadhirah said that the trip is very useful and informative, especially for the introduction of immigration process. She also hopes that further there will be an event like this again.

Visitation from Takamatsu University Japan

This December, from 15th-20th, our faculty welcomed guests from Takamatsu University Japan. The guests were Prof. Maruyama Shigefumi and Prof. Ukena Satoshige. The purposes of their visitation to FEB UNSOED are to held test and selection for our student candidates for joining Double Degree program in Takamatsu University Japan and to give a general lecturer to our students about business in Japan.

At December 15th, the test and selection for our student candidates were held. The selection processes include Japanese skill test and interviews. The interviews were held both directly with Prof. Maruyama and indirectly via Skype with the academic boards of Takamatsu University.

The next day, our guests gave a general lecture to our students about Business. Prof. Maruyama Shigefumi delivered lecture entitled "The modern method of production: the business opportunity of Japan-Indonesia" and Prof. Ukena Satoshige delived lecture entitled "The role of robot enhance business

competitiveness". The general lecture was held in international building room G.203 at 09.30 AM. About 60 students attended the lecture including our foreign students and staff. The next agenda of their visitation was to check the completeness of our student candidates' documents to Japan. There will be 5 students accepted and we would like to wish them a very good luck!
